MONACO

DRIVING YOUR DREAM.™

DRIVING YOUR DREAM.

Dreams. They're the way we write the story of our lives. Some are serious. Like raising kids or building a business. Others are pure fun. Like the dream you have early on a summer morning, sipping coffee and working on your life's next chapter. It's a dream of freedom and discovery. The ability to make big plans and change them on a whim. Or even better, to follow your heart without any plans at all. And then, when you put your cup down determined to see it through, you know you're ready for a Monaco motorhome. Because only Monaco's quality, reliability and innovation provide the experiences you've dreamed about. So that you can live life on the road to its fullest. Yes, it's the dream of a lifetime. And a Monaco can make it all come true.

Join us in celebrating the arrival of the ultimate luxury motorcoach — the 2005 Signature Series. This is a marvel of engineering, with more awe-inspiring features than ever before. To begin with, no other driving experience compares to the performance of the Roadmaster S-Series Semi-Monocoque chassis. It's custom built to the exact specifications of the 2005 floorplans, for the smoothest, most stable ride and impeccable handling. The powerful engine selections will also take your breath away — this year's options include a Cummins® ISX 525 HP or a Detroit Diesel Series 60 515 HP — both with 1,650 lbs./ft. torque. So come along for the ride of your life. We guarantee the road will never feel the same.

MONACO®

DRIVING YOUR DREAM.™

Each year, our designers create color and fabric combinations that lead the industry in warmth and style. This year, we're offering seven beautiful decors, including three — Churchill, Landsdown and Londonderry — with fabrics by Ralph Lauren. You'll also choose from seven of the most stunning cabinet styles you'll find anywhere, with selections that include both stained and natural finishes.

As you choose your favorite style of woodwork, you can be confident that each selection is crafted to the highest standards. The Signature Series' cabinets feature solid wood colonial double arched raised panel doors with edge detail and lined shelves. The drawer boxes are also made of wood, and as you open and close the drawers, you'll feel the quality of the low-friction roller guides.

Manufactured in, not added on. For added protection against stains, Dupont Teflon® soil repellent is applied to virtually all upholstery fabric during the finishing process for superior coverage.*

*Brand and application of upholstery fabric protection may vary depending on date recreational vehicle was manufactured.

Note: Colors depicted are a reasonable representation though they may not be an exact match of the actual colors due to variances in processing and production. See your dealer for actual fabric and paint chip samples.

No other manufacturer gives you as many innovative floorplan choices as Monaco. The 2005 Signature Series offers double, triple and quad slide-out models in lengths that range from 40' to 45'.

1 Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

2 Variances in the fabrication and installation of the tanks may cause the actual "usable capacity" to be greater or less than the capacities designated above.

3 Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Monaco Coach provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight. Consult your local Monaco Coach dealer for unit availability and further information. The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name which will result in comparable performance. All information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may show props or decorations that are not standard equipment on Monaco Coach models. Monaco Coach, the Monaco logo and its design, are registered trademarks. All other products and company names are trademarks and/or registered trademarks of their respective holders. While the color of the motorhome's exterior and the interior fabrics depicted in this sales brochure are fair and reasonable depictions, the colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and variances caused by inserting the photographs within the sales brochure. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer prior to submitting your order.
