THE RIDE OF YOUR LIFE.

Slide into the driver's seat and relax. The Montclair's short length allows for greater fuel efficiency and easy handling. In fact, pulling into a campsite is as easy as parking an SUV. Two comfortable captain's chairs offer you a commanding view of the road and easy access to controls. Above the cockpit, rich cherry cabinetry provides convenient storage space. When you pull over, turn on your 26-inch LCD TV and take it easy for a while. You've earned it.

* Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

** All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Monaco provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight. Consult your local Monaco dealer for unit availability and further information.
